

Hi children.  
This week I want to remind you to...

## Always use the car safety door!

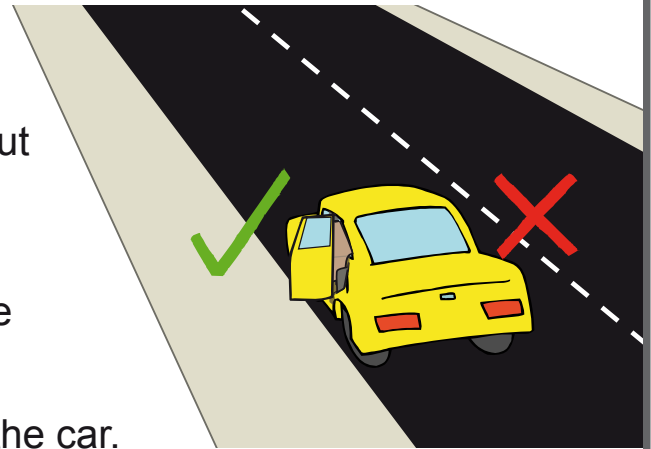

Do you know which door this is? The safety door is the back door on the left hand side of the car.

This is the door that is closest to the footpath or the edge of the road.

The safety door is the safest way to get in or out of the car because it's away from the road and other cars going past.

Wait for an adult to open the safety door before getting out.

**Always** use the safety door to get in or out of the car.

### Also remember:

- Always wear your seatbelt.
- Make sure your car door is closed properly and don't play with the door handle.
- Never put your arms or head out of the window.
- If you are too small to see out the window, don't stand up. You need a booster car seat so you can see out safely.
- Try not to be too noisy so you don't distract the driver.

The safety door is the safest way to get in and out of the car.

Remember children,  
Always wear your seatbelt.

Bye bye.  
Your friend Hector
